The references for topics listed here can be founded in the textbook. To determine which topic to choose, you can read the corresponding chapter in the text, Ref. 1 and Ref. 2 There are numerous journals for subjects related to optical networks, e.g. IEEE Journal of Quantum Electronics, Journal of the Optical Society B and Journal of the Optical Society A, Optics Letters, IEEE Photonics Technology Letters or Physical Review Letters. If you have problems in finding references, I can give you direction and help.

Note: Our library has all the IEEE journals online. These invaluable sources of information can be accessed off-campus by going to http://www.uwm.edu/Library and entering article and journal information, following instruction to fill in your ePanther login and password when prompted or use the “Off-Campus URL Generator” (http://uwm.edu/libraries/databases/ezlinker).
